...

Feedback occurs when outputs of a system are routed back as inputs as part of a chain of cause-and-effect that forms a circuit or loop. The system can then be said to feed back into itself. The notion of cause-and-effect has to be handled carefully when applied to feedback systems: Simple causal reasoning about a feedback system is difficult because the first system influences the second and ...

Common Causes of Stress & Their Effect on Your Health

The cause & effect diagram is the brainchild of Kaoru Ishikawa, who pioneered quality management processes in the Kawasaki shipyards, and in the process became one of the founding fathers of modern management. The cause and effect diagram is used to explore all the potential or real causes (or inputs) that result in a single effect (or output).

Causes and Effect Diagrams in Quality Management

Cause and Effect - The Danger of Multiple Group Threats Multiple group threats are a danger to causality caused by differences between two or more groups of participants. The main example of this is selection bias , or assignment bias, where the two groups are assigned unevenly, perhaps leaving one group with a larger proportion of high achievers.

Establishing Cause and Effect - Scientific Causality

Effects of Deflation. Deflation is like a terrible storm: The damage is often intense and takes far longer to repair than the storm itself. Sadly, some nations never fully recover from the damage caused by deflation. Hong Kong, for example, has yet to fully recover from the deflationary effects that gripped the Asian economy in 2002.

What Is Deflation - Definition, Causes & Effects

Effects of Marine Pollution. 1. Oxygen depletion. Seawater is full of dissolved oxygen, however decomposing sewage and other biomatter in oceans can result in a condition known as 'hypoxia' or oxygen depletion. This makes it hard for oxygen loving marine life – plants, fish and animals – to survive in the oceans. 2. Higher acidity.
